

The logo features a stylized sun icon on the left, composed of a circular shape with rays extending upwards. To the right of the icon, the text "SunGrant" is written in a bold, sans-serif font, and "BioWeb" is written below it in a larger, serif font.

SunGrant BioWeb

An online resource for bioenergy and bioproducts

The Sun Grant BioWeb is a public, educational website providing current information about biomass resources for bioenergy and bioproducts. This site is designed to help you understand—

- **What biomass is, where it is and how much is available**
- **How it can be converted to biofuels, biopower and bioproducts and the current state of biomass technology, research production and use**
- **Promote economic diversification in rural communities**

bioweb.sungrant.org

Information found on this site is useful for scientific researchers, policy makers, industry, agricultural producers, and anyone who wants to learn more about biomass and its uses. BioWeb contributors, representing a broad spectrum of expertise in the biomass arena, include authors from universities, national laboratories, federal agencies, state governments, and private industry.

Sun Grant BioWeb represents a joint effort of the five regional Sun Grant Centers that make up the Sun Grant Initiative.

The national **Sun Grant Initiative** is a network of U.S. land-grant universities and federal agencies partnering to make a biobased economy a reality for America.
